

FFA Forestry Teams

During the last week of February '08, the Mesa Vista FFA chapter and the Las Vegas FFA Robertson met together to learn forestry skills for the upcoming judging season. All FFA members sharpened their compass reading, timber cruising, and tree identifying skills.

Our FFA students were especially excited to work on tree identification (shown above) and see trees that aren't normally found in our region. Both Mesa Vista and Las Vegas FFA chapters are extremely excited to test their new skills in the upcoming judging invitationals.
